Student access to Show My Homework
How to log in

To make the process of logging into Show My Homework (SMHW) as easy as possible, we have setup a single sign-on (SSO) via Google. A Tavistock College Google account has therefore been created for you and you must use that account to log on.

Your Google email address will be your existing computer account username followed by **@tavistockcollege.org**

For example **astudent@tavistockcollege.org**

Your password will be the same password you use to log onto the College computers. For example **tavy1234**

First log in to Google and once you have successfully done so log in to SMHW. Here's how:

Open Google Chrome – you should be presented with the following screen.

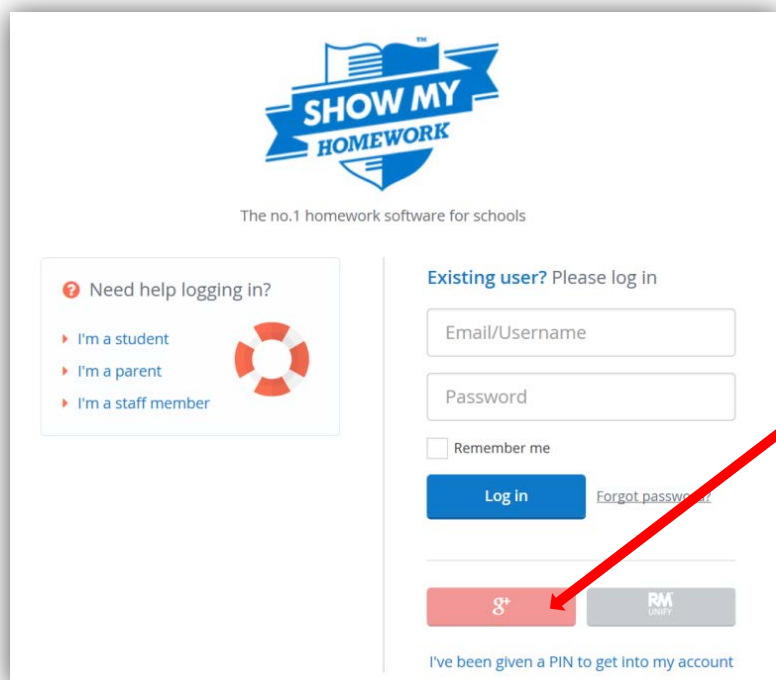

Click Sign in (top right hand corner)

You should be presented with the sign in screen.

Sign into Google using your College Google email address and password.

When you have successfully logged into Google you can log in to SMHW

Go to www.showmyhomework.co.uk/login

Click on the G+ to log in to SMHW using Google

You should then successfully log in to SMHW.

If you have any queries ask your teacher
