

February 2021

Dear parent/ carer

Firstly, I would like to thank you for your continued support. We are immensely proud of the commitment and engagement to remote learning that students in year 8 are showing across all subjects. Tavistock college will continue to offer remote learning for students to complete through Google classroom. Please contact us if we can do anything to support.

The remote learning expectations mean that students need to follow their normal timetabled lessons as teachers are either recording or offering "live" lessons. Teachers will be using Class Charts to notify parents/carers if their child has completed the remote work. Can you also please encourage your child to join the weekly "Google meets" set up by their tutor - days and times will be in their Google classrooms.

Please find the attached report for your child. You will find detailed information regarding each subject they are taking with comments from their teachers. This report contains more information than the normal interim report that would have been issued ordinarily at this time of the academic year. This is due to the unprecedented times we currently find ourselves in and the regrettable fact that we are unable to hold a face to face parents evening. Subject teachers will have included grades in the report, specific developmental targets and information to help guide you son/daughter with their option choices. In addition to this report, if you would like a telephone call or Google meet to discuss anything with a staff member, please liaise directly with them.

I look forward to seeing your son/daughter when students are able to return safely to college.

Yours sincerely

Mr Stroud  
Assistant Principal and Year 8 Lead
