RE: Clubs and Enrichment at Tavistock College

Dear Families,

At Tavistock College, we believe that education extends far beyond the classroom. Our clubs and enrichment programme gives students opportunities to try something new, develop their interests, build confidence, make friends and learn new skills.

Our programme reflects the Department for Education's Enrichment Framework, published in 2026, which encourages schools to offer a broad range of opportunities across sport and physical activity, arts and culture, outdoor and adventurous activities, civic and community engagement, and wider life and future skills.

At the College, this includes opportunities across sport, music, creative arts and many other clubs and activities. Students can, for example, take part in Jazz Band and Choir, learn a musical instrument, or develop their confidence, communication and performance skills through LAMDA Speech and Drama.

Supporting every student to take part

We want enrichment to be for everyone. Late buses run on Tuesdays and Thursdays to help students access after-College activities. Where cost might be a barrier, we

Dartmoor
Multi Academy
Trust

also aim to provide Pupil Premium support towards music with advice and support also available for music and sessions.

lessons,
LAMDA

LATE BUSES 2026

We take a register at every club so that we can track participation, celebrate students who are getting involved and, importantly, identify students who are not yet taking part. We can then support and encourage them to find an activity that interests them. This approach supports the DfE benchmarks around accessibility, engagement, outcomes and continually improving our offer.

Please encourage your child to look through the clubs available and choose something to try.

A club can lead to a new interest, a new friendship, a new skill or simply somewhere a young person feels they belong.

We look forward to seeing our students making the most of the opportunities available this year.

Yours,

James Buchanan
Principal
