

Support with mobile data increases

Dear Parents and carers,

In this challenging and difficult time the government has announced that they are committed to supporting the remote learning provision that schools are putting in place.

Schools, trusts and local authorities can therefore request mobile data increases for children and young people who:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

Children with access to a mobile phone on one of the following networks might be able to benefit: Three, Smarty, Virgin Mobile, EE, Tesco Mobile, Sky Mobile. Other providers may hopefully join the scheme at a later stage.

Given the criteria outlined above, if you feel that you would qualify for this assistance please complete the following form:
